This cotton noted for its **STRONG—UNIFORM** Staple Character and its **EXCELLENT YIELDING CAPACITY**. Cotton Buyers and Growers alike praise it.

PRICE: See Price List

"HUMCO" FOSTERWILT

Strain 5

★★ A New Strain

OUR Fosterwilt STRAIN 5 is descended from our Fosterwilt Strain 1. In this Strain 5 we have intensified its **WILT RESISTANCE**, its **YIELDING CAPACITY**, its **STAPLE CHARACTER** through careful breeding over a period of 10 years.

We offer in this STRAIN 5 an **EARLY—CLOSE-FRUITING—OPEN** type cotton, with long fruiting branches and **LIGHT FOLIAGE**. Its yield record shows 40 lbs. of lint per acre better than its Parent Strain, which means \$8 to \$10 per acre **HIGHER MONEY VALUE**.

Its Staple Length: 1-3/32" to 1 1/8" Full.

Its Boll Size: 60 to 65 to lb. (Picks easy.)

Its Lint percent: 35%.

Its Lint Character: Strong—Uniform.

PRICE: See Price List

4. PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

DELINTED SEED

Every year more planters recognize the value of MACHINE DELINTED COTTONSEED. They plant better. They come up quicker and grow off faster, insuring better stands, and therefore higher yields.

They are DOUBLE RECLEANED and all light seed are removed.

In the delinting process we take off two lbs. lint per bushel and give 28 lbs. of delinted seed for a bushel, or 93 lbs. of seed for 3-1/3 bushels.

We are prepared to serve these Delinted Seed at an EXTRA COST of 50 cents per bag or \$10.00 per ton, if your order for delinted seed is received in time for us to have this work done. We feel that the extra cleaning these delinted seed get is worth the difference in price charged for them.

SELECTED - SEEDS

LONG STAPLE COTTONS

WILDS STRAIN 14

DESCRIPTION

It is Very EARLY in blooming and maturity, with THIN FOLIAGE, LARGE BOLLS (65 per lb. seed cotton). Turns out 33% to 35% lint, with staple length of $1\frac{3}{8}$ " Full under favorable conditions. Its staple is strong and fine in spinning quality. It is a very heavy producer for a long length variety. Our crop made full 500 lb. bale per acre in 1943.

The lint from our crop of this cotton sold as high as 33 cents per lb. for top grades.

Desirable type—uniformity—early maturity and high yielding capacity characterize this cotton.

PRICE: See Price List

WILDS STRAIN 15

★★ First Year from Breeders

A LONG LENGTH COTTON, with HIGH PRODUCTION and a higher MONEY VALUE per acre than other strains of this variety offered previously.

The WILDS variety has proven its adaptability over a wide area and is conceded to be the BEST UPLAND LONG STAPLE COTTON, with a spinning quality to its fiber that is outstanding.

CHARACTERS

Season: Extra Early Fruiting.

Plant Type: Semi-Dwarf-open-medium thin foliage.

Bolls: Large 65 to 70 to lb. Round ovate, slightly pointed. Open wide and fluffy. (Easy to pick.)

Lint Percent: 33% to 35%.

Lint Length: $1\frac{1}{4}$ " to $1\frac{3}{8}$ ".

Lint Character: Excellent—Strong—Silky.

Production: High (exceptional for long length cotton).

PRICE: See Price List

We Are Responsible

Our men properly supervise the growing and handling of all the seed we offer. We guarantee the seed we sell to be right.

They must be PURE, TRUE TO NAME, HIGH QUALITY, and must GERMINATE RIGHT.

Our Cottonseed are grown on our own farms, or under contract for us on the farms in this section, from seed stocks furnished by us. The cotton is ginned on our gins and the seed are recleaned, sacked, stored, tested and treated by our men.

WE KNOW WHAT WE SELL and we solicit your business on the grounds that we are prepared to serve you with HIGH QUALITY SEED at attractive prices.
